

KitchenAid

Signing the warranty contract means full and complete acceptance of the general and specific conditions. KitchenAid has committed itself to ensuring an after sales service on purchased products. This means you benefit from a two-year warranty including parts, repair labour and service calls. Damage due to external causes or resulting from improper use or improper handling are excluded from the warranty.

APPLICATION LIMITS OF THE WARRANTIES

The warranties apply on the condition that the appliance is used in a proper way, for the personal and household use, for which it was sold. Warranties are personal and in no case transferable.
